Three ways to work with us

Package 01
Standard AI

Ongoing support, enablement, and incremental development for organizations already using AI.

Ideal if you

- Use AI and want a partner to maintain and expand it
- Have a backlog of use cases to prioritize and roll out
- Need a sounding board for "is this a good fit for AI?"

Your core team

Delivery Manager and Primary Consultant, with AI specialists as needed

Package 02
Advanced AI Development

Everything from Standard plus hands-on development support across code quality, DevOps, QA, security, and agent development.

Ideal if you

- Need senior support to hold quality and best practice as you build
- Want to de-risk your build through CI/CD, QA, and security review
- Want your own developers to grow AI capability over time

Your core team

Architect, Developer, and Delivery Manager

Package 03
AI Advisory

Architect-level guidance to plan, evaluate, and mature your AI program. No build work under this package.

Ideal if you

- Need guidance on strategy, tooling, and architecture before you build
- Have a technical team and want a senior AI thought partner
- Are a Salesforce Managed Services client adding AI strategy

Your core team

Architect and Delivery Manager
